1) Puerbach

Ex Libris Petri Joseph
Ignatii Mattei Cattochij Lanci
1708.

Pro explicatione sequentis figuræ vide parvum
opusculum Theoricæ Planetarum Georgij Purbachij
auctori Petri Apiano et in Idiomate italicum reductum
ab Oratio Toscanella Florentino. Venetijs. 1616.

que librum inuenies inter meos ceteros impressæ in forma octauæ
continens 59. folia.

Videas insuper Comentarium Christophori Clauij in Sphaeram
Iacobi in libro de Theorica Orbium pag. 620 in cap. 4. sphere

Faint, illegible text at the top of the page, possibly a title or header.
